WORK EXPERIENCE

Brightlabs (Australia)   9/2012 - Current
Web Developer

I am currently employed in Brightlabs as Web Developer doing front end and backend development in PHP.

WorkingMouse (Australia) 4 Months   5/2012 - 9/2012
Web Developer

I was working with WorkingMouse as a web developer for building a CMS from ground up using CakePHP MVC Framework. I worked on every aspect of the website. I reason I left this company is because the company needs to go to Las Vegas for a Mining Expo during September and depending if they are able to sell the product they made, I might have a job when they come back. As I am very new to the workforce. I decided to look for another job.

University of Queensland (Australia)   6/2011 - 11/2011
Tutor for Service Oriented Architecture (SOA)

I was a tutor for the Service Oriented Architecture (SOA) class. I was responsible for creating practical and evaluating student's programming exercises every week
- Create practical work problems
- Evaluation of student's work
- Impart .NET technology knowledge such as MVC, Web Services, C#, Debugging, etc.
